New homes insulation incentive

- Homes must be built with a central air conditioner, heat pump or electric heating system serving 80 percent of the living area (ducted unitary cooling equipment).
- We recommend insulating to the highest R-value possible. Minimum R-values to qualify for an incentive are: R-48 in the attic, R-24 in the wall, and R-29 in the floor.
- Insulation may be installed by a builder or contractors. Insulation incentives will not exceed insulation purchase price. Self-installers are eligible for incentives on materials only. For self-installed insulation, please provide documentation of R-values and square footage of insulation installed. This information will be listed on your register receipt or your insulation packaging. Contractor installations require invoice and proof of payment to receive incentives. Work may be inspected.
- Above grade portions of exterior basement walls qualify. Basement floors do not qualify. Main level floors qualify if basement is unheated or nonexistent.
- An itemized receipt/contractor invoice clearly indicating square footage for each area, insulation type and R-Values for insulation installed, itemized costs, and purchase and installation dates and proof of payment in the form of a copy of canceled check, charge receipt, credit card statement or finance agreement showing the full payment must be submitted with your application.

Terms and conditions

Incentive availability

Incentives are available on a first-come, first-served basis according to the postmark date on the application. Please reference the program Web site at rockymountainpower.net/hes to determine the current status of incentive availability. All equipment must be new and have been purchased and installed prior to submitting an incentive application. It is required that equipment be purchased and installed on or after January 1, 2010. Applications must include all information requested. Failure to provide any required information may result in the delay or denial of the incentive. Failure to meet any program requirement will result in the denial of the incentive. Incentive will not exceed purchase price. Additional terms and conditions may apply. Incentives are subject to tariff approval and may change with 45 days notice. Please call us at 1-800-942-0281 for current program requirements.

Qualifying builders

Builders who construct homes in the state of Wyoming in Rocky Mountain Power service area on rate schedules 2 or 18 qualify. Home must have an electric heating system, central air conditioner or heat pump serving 80 percent of the floor area (ducted unitary cooling equipment).

Qualifying equipment and services

Qualifying products and services may be found online at www.rockymountainpower.net/hes, or by calling 1-800-942-0281. New home incentives are for new homes only and are paid to the builder.

Application details

Rocky Mountain Power reserves the right to conduct random inspections to verify information provided on the application. If your application is selected for review, it will not be processed until the review is satisfactorily completed. Incentive qualifications and amounts are subject to change and termination with 45 days notice. Rocky Mountain Power customers should visit the program Web site at www.rockymountainpower.net/hes.

The builder hereby transfers to Rocky Mountain Power all "Environmental Attributes" attributable to the Qualifying Equipment or its operation. Environmental Attributes include any and all credits, benefits, emissions reductions, offsets and allowances, howsoever entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by PacifiCorp generating facilities through reduced generation of energy or other savings or offsets on account of the Qualifying Equipment. Builder will not claim ownership of any Environmental Attributes. As long as the builder at the same time states the Qualifying Equipment was made possible with funding from Rocky Mountain Power, the builder may claim that it is facilitating the production of the Environmental Attributes attributable to the Qualifying Equipment.

Rocky Mountain Power issues incentives in the form of checks not utility bill credits. Rocky Mountain Power is not responsible if your dealer provides inaccurate information about the amount and/or conditions of the actual incentive and Rocky Mountain Power will not pay incentives for equipment that is mislabeled or misrepresented by dealers regarding incentive qualifications. Households receiving incentives under the Home Energy Savings program may not receive equipment purchase and installation incentives under other Rocky Mountain Power programs.

The Rocky Mountain Power Home Energy Savings program does not share your e-mail address or contact information. If you chose to provide your e-mail address and indicate that you wish to be contacted via e-mail, you may receive program correspondence electronically.

Incentive applications must be submitted within 90 days of completion of the new home.
